HERE'S THE BAD NEWS!

The two most common pool and spa chemicals are chlorine and bromine.

These are two exorbitantly deadly toxins.

Known Chlorine Dangers:

- * Chlorine combines with natural organic matter decaying vegetation to form potent cancer causing trihalomethanes (THM's)**
 - * Collectively include such carcinogens as chloroforms, bromoforms carbon tetrachloride, bichloroethane and other cancer causing agents**
- * The level of chlorine in swimming pools is over 1,000% the level deemed minimally safe by the EPA in water * Causes atherosclerosis, stroke and heart attack**
 - * Causes skin to prematurely age**
 - * Damages the human eye**
 - * Causes bladder, breast, testicular, bladder, colon, or rectal and bowel cancer as well as malignant melanoma**
 - * Damages lung tissue**
 - * Causes acne, psoriasis, seborrhea and eczema**
 - * Converts to dioxins - the most dangers of cancer causing chemicals and which build up permanently within a person's body causes infertility and birth defects**
 - * Damages the nervous system permanently**

"Chlorine is so dangerous" according to PhD biologist/chemist Dr. Herbert Schwartz," that it should be banned. Putting chlorine in water is like starting a time bomb. Cancer, heart trouble, premature senility, both mental and physical are conditions attributable to chlorine treated water supplies . It is making us grow old before our time by producing symptoms of aging such as hardening of the arteries."
